PROFESSIONAL SUMMARY

Data Analytics fresher with knowledge of SQL, Python, Advanced Excel, and Power BI. Looking to start a career as a Data Analyst and apply my skills to work with data, create meaningful insights, and support business decisions. Interested in continuously improving my analytical and technical skills through practical work and real-world projects.

EDUCATION

Dhote Bandhu Science College, Gondia **CGPA-9.60/10**

Bachelor of Vocation (B.Voc) 2021 - 2024

CERTIFICATIONS

- Data Analytics Certificate Program
- DeveLearn, Mumbai | Grade: A

PROJECTS

Bank Database Management System — MySQL

- Designed and developed a relational database for a banking management system using MySQL.
- Created and managed tables for customers, accounts, transactions, employees, and branches.
- Performed database operations and analysis using SQL queries, constraints, joins, CTEs, and aggregate functions.
- Applied normalization and relational constraints to maintain data integrity.

Hotel Booking Analysis — Python

- Analyzed hotel booking data using Python, Pandas, NumPy, Matplotlib, and Seaborn.
- Cleaned and preprocessed the dataset by handling missing values and duplicates.
- Performed Exploratory Data Analysis (EDA) to identify booking, cancellation, and customer trends.
- Created visualizations to understand patterns and support data-driven insights.

Sales & Returns Performance Dashboard — Power BI

- Developed an interactive Power BI dashboard to analyze sales, returns, customers, and product performance.
- Used Power Query for data transformation and DAX to create measures and KPIs.
- Built interactive visuals with slicers, filters, drill-through, and bookmarks.
- Analyzed sales and return trends to identify key business insights.

KPI Dashboard in Excel — Advanced Excel

- Built an interactive KPI dashboard using Microsoft Excel.
- Used PivotTables, PivotCharts, slicers, and conditional formatting for analysis.
- Compared actual performance with targets to track key business metrics.
- Presented business insights through clear and interactive visualizations.

TECHNICAL SKILLS

MySQL, SQL Querying, Database Management, Advanced SQL Concepts, Pandas, NumPy, Matplotlib, Seaborn, Power BI, Excel, Power Query, DAX, Data Modeling, Interactive Dashboards, Advanced Excel, PivotTables, PivotCharts, Data Analysis.

WORK EXPERIENCE

Solar Secure Solution **Online**

- Full Stack Web Development Intern Feb 2024 – Apr 2024
